## DataMan®

Cognex' DataMan® 70 is a compact fixed-mount barcode reader providing the highest read rates for 1-D and 2-D label-based barcodes. With advanced image formation and a small footprint, DataMan® 70 is the ideal solution for slow-moving or high speed manufacturing and logistics applications.

Equipped with industry-leading 1DMax® with Hotbars and IDQuick® barcode reading algorithms that reliably read label-based 1-D and 2-D barcodes with variations in contrast, blur, damage, resolution,

quiet zone violations, and perspective distortion. DataMan® 70 is small enough to fit in the palm of your hand. Its compact design and flexibility eliminates the need for equipment redesign or complicated optical paths with mirrors.

Flexible configuration options and powerful LEDs and optics create evenly-illuminated, high contrast images for short or long distance code reading, large depths-of-field, and slow or high-speed applications.

*For more information on Cognex DataMan 70, contact Alan Carey, Vice President of Sales, at 443-561-3021 or email [info@conveyorhandling.com](mailto:info@conveyorhandling.com).*
