Conveyor Handling Company Names Jeff Grim as Director of Installation, Planning & Development

ELKRIDGE, MD, June 26, 2017 — Conveyor Handling Company has promoted Jeff Grim as the new Director of Installation, Planning and Development. Jeff has been a valued member of the CHC Team for the past 23 years. His field experience, his understanding of conveyors and related material handling equipment, his attention to detail, and his ability to manage our installations exemplify his commitment to improving the execution of our installation projects.

In his new role, Jeff will be responsible for developing plans for the installation of CHC conveyor projects. He will continue to work closely with the Salesmen and the Engineering Department to make sure that all aspects of the project have been covered and that the equipment and materials will be ordered correctly. He will also be responsible for creating a schedule based on the customer's needs and project completion requirements. Jeff will be handling tasks on the front end prior to the start of the project.

Additionally, Walt Carter has been promoted to Installation Coordinator. Walt was hired as a conveyor installer in 2008. During the last nine years, Walt Carter worked his way up to project foreman and has shown that he understands best practices, troubleshooting and the intricacies and complexities involved in the installation of a conveyor project. In his new role, Walt will be responsible for insuring that conveyor projects remain on schedule, on budget, and are installed as efficiently and safely as possible. Walt will report directly to Jeff Grim.

About Conveyor Handling Company:

Conveyor Handling Company is a leading material handling systems integrator specializing in solutions for product distribution, storage, and manufacturing applications. Conveyor Handling Company provides turn-key systems using a comprehensive process of data analysis, layout development, vendor/manufacturer selection, implementation, post-commissioning preventative maintenance/service, and total project management.

Conveyor Handling Company's solutions also include WMS/WCS and control software, conveyor and sortation, AGV's/robotics, scanning and vision, palletizing, order picking, AS/RS, dynamic and static product storage, mezzanine, ergonomic and safety equipment, LED warehouse lighting, packaging, in addition to most allied warehouse equipment and supplies.

Conveyor Handling Company is uniquely positioned in the market as an independent systems integrator, allowing a true needs-based and collaborative approach to develop the right solution. In addition, Conveyor Handling Company uses a combination of in-house analytical and engineering capabilities coupled with the resources of our prominent supplier partners, who consist of the top names in the industry.

For over 40 years Conveyor Handling Company has provided a vast range of case, unit and pallet handling solutions for many customers, including Fortune 500 companies and the U.S. Government.
